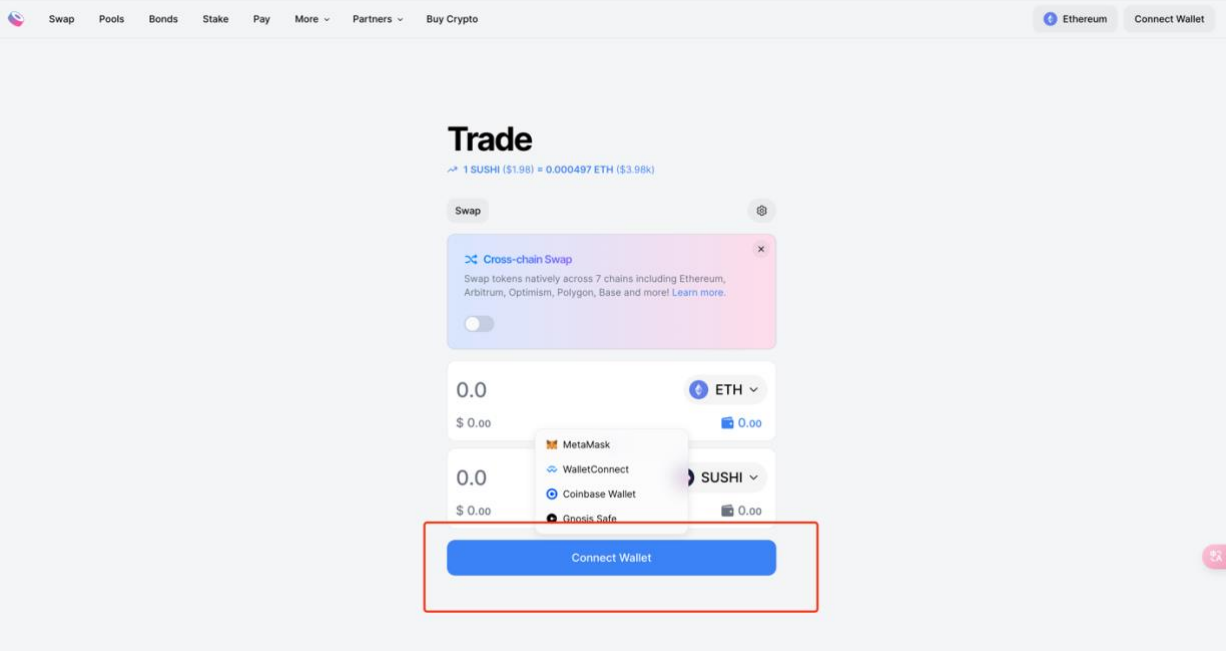
Ethereum Private Key List 25.03.2025

SushiSwap (dApp)

This tutorial introduces how to interact with SushiSwap after connecting Keystone with MetaMask.

- Connect Keystone to MetaMask:
  - Open your Keystone 3 Pro and connect it to MetaMask. Follow this guide for assistance: https://guide.keyst.one/docs/metamask-extension
- Open the SushiSwap Website:
  - Open the official SushiSwap website (https://www.sushi.com/swap) in your browser.
- Connect MetaMask to SushiSwap:
  - Make sure you are logged in to MetaMask and have selected the account you want to connect.
  - On the SushiSwap website, find and click on "Connect Wallet".
  - In the pop-up wallet connection window, choose MetaMask and confirm the connection.



- Authorize SushiSwap to Access Your Assets:
  - Once connected successfully, SushiSwap will request authorization to access your assets in MetaMask.
  - You will need to confirm the authorization request in MetaMask and allow SushiSwap to access your assets.
- Explore the SushiSwap Platform:
  - Once connected and authorized, you can start exploring the Yearn Finance platform and use its various features such as depositing, investing, etc.
