

VESPR (Mobile) and seed phrases

Welcome to this tutorial! This guide will walk you through how to connect your Keystone hardware wallet with the VESPR wallet and initiate a Cardano transaction.

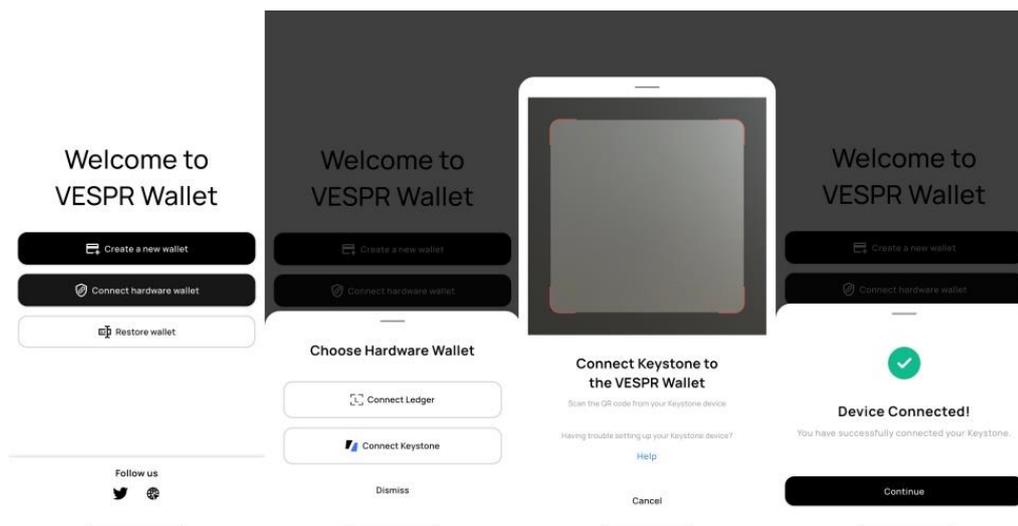

Let's get started!

Connection Preparation:

- Upgrade to Keystone 3 Pro firmware version 1.7.0 or higher [here](#).
- Upgrade to [VESPR app](#) version 3.8.0 (290).

Step 1: Connect to VESPR Wallet

- On the Keystone home screen, tap the [...] icon in the top right corner and select [Connect Software Wallet].
- Select [VESPR], and a QR code will appear on your Keystone device.
- Open the VESPR wallet, select [Connect hardware wallet] > [Connect Keystone], and scan the QR code displayed on your Keystone device.

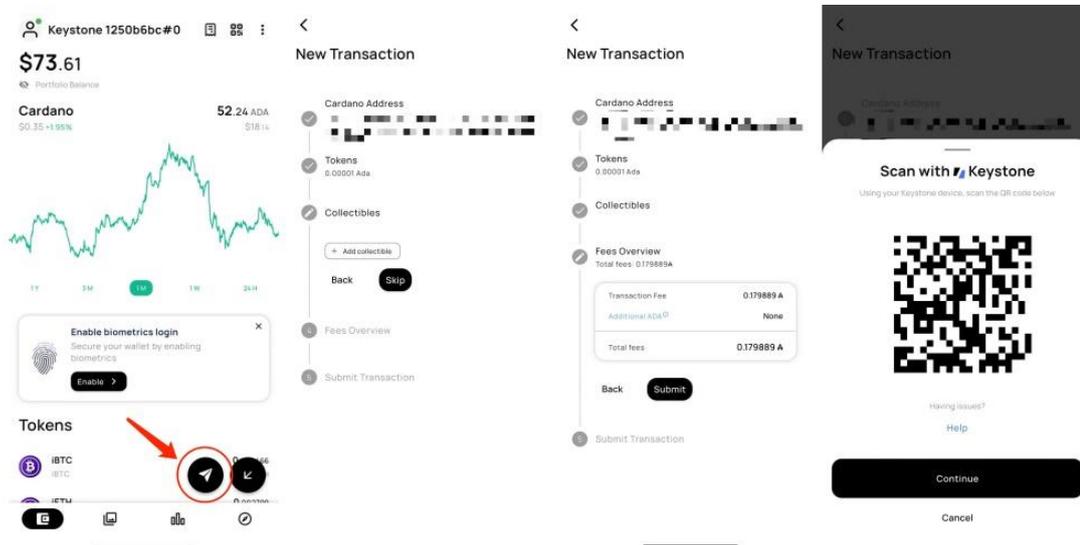

- Done! Your Keystone hardware wallet is now successfully connected to VESPR.

Step 2: Send a Cardano Transaction

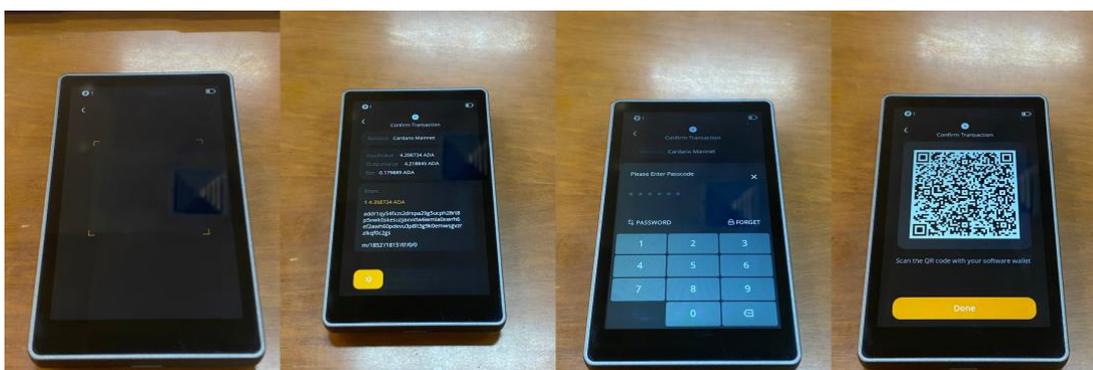

On VESPR:

- On the VESPR homepage, tap the "Send" button to initiate a transaction.
- Enter the recipient's address and transaction amount. After confirming, click [Submit], and VESPR will display a QR code.

On Keystone:

- Use your Keystone device to scan the QR code displayed on VESPR.
- After reviewing the transaction details, enter your password.
- Keystone will display a QR code.

- On VESPR, click [Continue], and scan the QR code displayed on your Keystone device.

- You have successfully sent a Cardano transaction using Keystone and VESPR!

After connecting Keystone to VESPR, you can easily send funds. As a hardware wallet, Keystone secures your assets, requiring its signature for all transactions. Additionally, you can explore and utilize the various online features of VESPR to meet your basic needs.
